

### Food for Thought 3

One of the laws of nature is that the Creator establishes the law under which its creation shall operate; and the creation can never rise to a level equal to or greater than its Creator, without consent.

We the People of America created the legal fiction corporation styled as the UNITED STATES to facilitate the receivership. Therefore, We the People are the Creator who establishes the laws under which the legal fiction corporation, the creation, shall operate.

It is clear in America today that the corporate UNITED STATES, the creation, has risen to a level equal to or greater than its Creator. This was either done in violation of the laws of nature, or by our consent. By contract!

We the People of America have contracted away our position and status as Creator and have become a slave to our own creation, having become lost in the matrix.

We the People of America have voluntarily stepped down from our position as Creator to play in the creations sandbox under the creations rules and bitch about how unfair and one sided the game has become. We wine and complain and make every attempt to have the creation change the rules so that we can win once in a while, to no avail. We spend all of our time and energy entangled in the lowly vibration of our creation when all we need do is to REMEMBER WHO WE ARE !

When we get tired of playing in their sandbox; when we get tired of being trapped in their matrix, we need to simply get up, turn around and walk away. Simply resign from the game, stand up and step outside of the sandbox and regain your position and status as Creator!

The first step to regaining our status as Creator is in KNOWING WHO WE ARE!
